Yes, I can make that time. I will ask Brad Dodd if he wants to be involved with this call.

All – Lets meet to discuss “goal setting” for the cleanup. I think that if we can start to put a set of goals together to present to the ARSG for a discussion at one of their monthly meetings, perhaps a “common vision” could begin to emerge. I know – I’m probably being overly optimistic but when on several recent occasions the question of what our “collective” goal was went unanswered, it seems like EPA and BLM should take the initiative to formulate something.

Brent & Kay – I don’t know your schedules so please let everyone know if this will work or suggest an alternate day/time next week. And if there is someone else in BLM that should be included please forward this invite to them.

Thanks.

Paula Schmittdiel
